

well you need to tell all the competitions to stop all those lying and thing like that .. cuz i am tired of people saying that CSD said this .. and that.

It need to be STOP! and CSD tell everyone that they created the first high speed internet. which making sorenosno look bad.. and thing .. you need ot hopen your eyes. not your ears.. by hear .. and see what they said .. some time you need to go undercover and see what they said.

that is not true .. if your a FCC .. why dont you do anything to tsop that.

what i been working for sorensen for 7 months . i have seen customer putting sorensen back .. is bec of CSD telling them about FCC . about if FCC wont pay sorensen ..and we all have ot pay it by min ... tp ise sorensen VRS ... and customer put it back . and they use CSD products .. why are they acting liek that .. it is not right .. you have to do somehting
